

Application for GISC Tokyo DAR Service

Under the following conditions, I (hereafter referred to as “the User”) hereby apply to register for use of the Data Discovery and Retrieval (DAR) service and the metadata management service (if required by PR) of the Global Information System Centre (GISC) Tokyo operated by the Japan Meteorological Agency (JMA):

- a. **Costs**
JMA shall provide information intended for global exchange and other relevant data (hereafter referred to as “the Information”) free of charge, and the user shall cover all costs involved in accessing the Information, including those relating to the applicant’s computer systems and communications.
- b. **Conditions of use**
Registered users may access the Information under the following conditions:
 - a) Resolution 40 (Cg-XII) allows WMO Members to identify certain types of additional data that may not be re-exported for commercial use.
 - b) Information not covered by Resolution 40 may not be redistributed to third parties. A list of Information bound by this condition can be found at http://www.wis-jma.go.jp/cms/gisc_tokyo/terms_and_conditions.html.
- c. **Disclaimer**
 - a) JMA does not guarantee the overall quality of service or the content of the Information.
 - b) JMA assumes no liability or responsibility for any problems arising from access to the Information or its use.
- d. **Alteration of service**
 - a) JMA reserves the right to terminate the data provision service with prior notification.
 - b) JMA reserves the right to change the content or format of the data provision service without prior notification.
 - c) JMA reserves the right to take action as necessary to keep the service running well, including suspension or revocation of User privileges in the event of any breach of the conditions of use regarding the Information or excessive data requests.

(User)

(Delegate of PR to WMO*)

Name: _____
