- 3. How to use **SATAID** forum

1. What is **SATAID**?

What is SATAID? (Satellite Animation and Interactive Diagnosis)

SATAID is a sophisticated display program developed by the Meteorological Satellite Center of JMA, that enables the use of a wide range of meteorological data with satellite imagery. This program helps the forecasters to continually analyze and monitor weather parameters and phenomena for improved meteorological services.

What is SATAID? - SATAID functions -

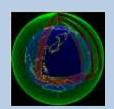

1. Displaying and Controlling Satellite image

- Selecting 7 Satellite images(VIS,IR etc)
 NC, NW,SC,SE,EC,WC,FD
- Controlling Satellite image animation
- Zooming in/out
- Displaying RGB images
- Displaying Coast/Grid lines

2. Displaying the NWP/observation data

- Displaying NWP/SST data
- Changing elements/colors
- Displaying SYNOP/SHIP/TEMP data
- Adjusting gradation and enhancing color

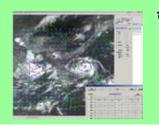

3. Data Evaluation

- Brightness temperature evaluation
- Cloud movement evaluation
- Time-series evaluation
- Cross-sectional evaluation
- Histograms
- Isolines

4. Other functions

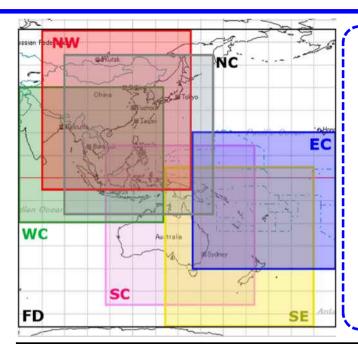

- Save satellite images and observation data
- Put your analysis and comments using draw/edit function

It is useful

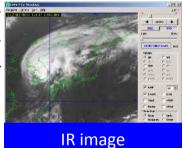

What is **SATAID?** - Satellite images -

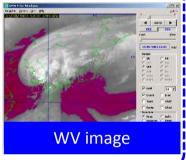

Data set of seven areas are provided in SATAID service. You can select area name from SATAID application menu bar when you download data.

Data of each area includes some channel data

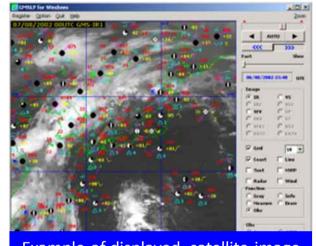

- 1. Infrared channel 1
- 2. Infrared channel 2
- 3. Infrared channel 4
- 4. Visible imagery
- 5. Water Vapor

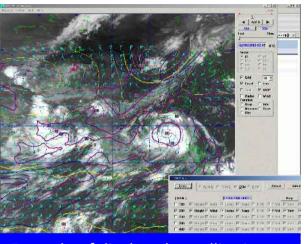

I	Abbr.	Area Name	Latitude	Longitude	Sum of Size	
	NC	North Central	55N-15S	90E-155E	2.3GB/3day	
I	NW	Northwest	65N-5S	80E-145E	2.1GB/3day	New
I	SC	South Central	15N-55S	107.5E-172.5E	2.2GB/3day	areas
ļ	SE	_Southeast	<u>6N-65</u> S	135E-200E	2.1GB/3day	
/ 	EC	East Central	20N-40S	145E-210E	1.9GB/3day	
![WC	West Central	40N-20S	70E-135E	2.0GB/3day	
	FD	Full Domain	65N-65S	70E-210E	9.7GB/3day	

What is **SATAID**? - Observation, NWP and RADAR -

Example of displayed satellite image - with observation data -

Example of displayed satellite image - with NWP -

Example of displayed satellite image
- with RADAR -

Observation data	servation data		
SYNOP	Interval : hourly		
	120-160KB/file (map time), 40-70KB/file (other)		
SHIP	Interval : hourly		
	20-50KB/file		
TEMP (A,B)	Interval: Basically 12hour/day		
	120KB/file		
METAR	Interval : hourly		
	200-270KB/file		

NWP(Numerical Weather Prediction) Products		
Resolution	1.25 x 1.25 deg	
Forecast hour	up to 48 hours	
Initial time	00, 06, 12, 18 UTC	
Interval	4 times/day (around 04, 10, 16, 22 UTC)	
Cino	4 MB/file	
Size	15 MB/file (Full Domain)

2. Benefits of **SATAID** forum

Benefits of a discussion forum

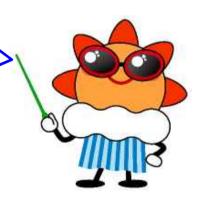

The SATAID application comes in handy when I analyze weather parameters/phenomena.

However, it has many functions. How do I learn SATAID service/application? Should I ask JMA by email? What else can I do?

Can I do anything for you?

We are developing the information sharing tool,
which is the online discussion forum.

You can access to it anytime/anywhere via the Internet.

Benefits of a discussion forum

1. Online learning

Personal responses to forum topics are not limited in time or the length.

Users have the freedom to continue dialogues about the topics that interested them most.

2. Flexibility and convenience

SATAID forum is available at all times of day or night. It is accessible from the internet connection via world wide web.

The forum discussion occurs completely online, users have the flexibility to add their input when they are prepared. Some choose to answer questions immediately.

- 3. Get different perspective Users can learn about the SATAID from a different perspective.
- 4. Make relationships
 Relationships can easily be made between users through active comments and posts.

Forum user can chose interesting topics, Of course you can post/read them.

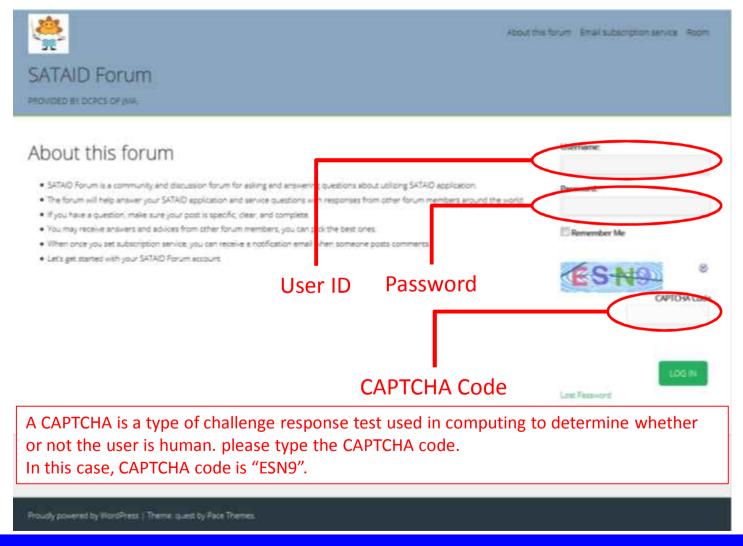

In order to use the SATAID forum, You need to get forum ID and access to the Internet.

3. How to use SATAID forum?

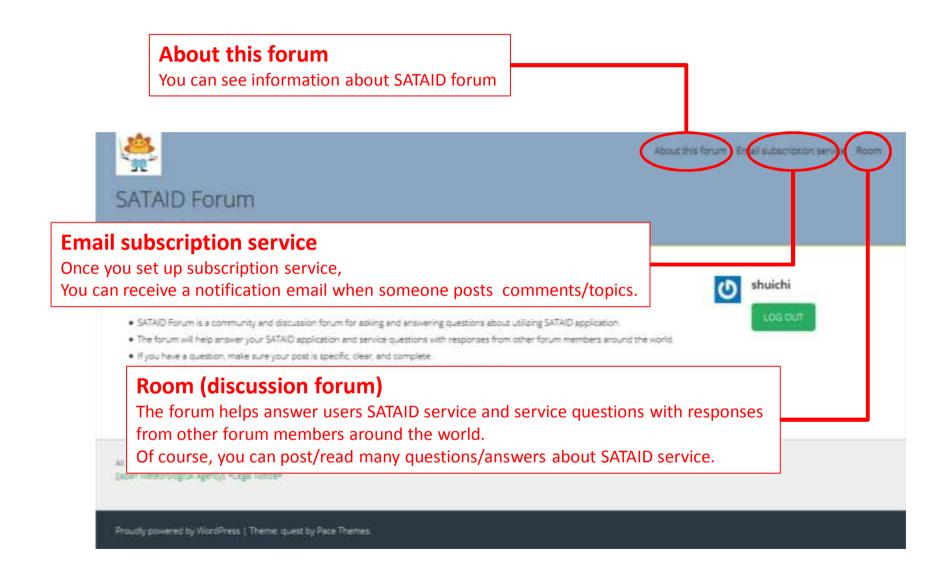

How to use SATAID forum – How to log in -

SATAID forum

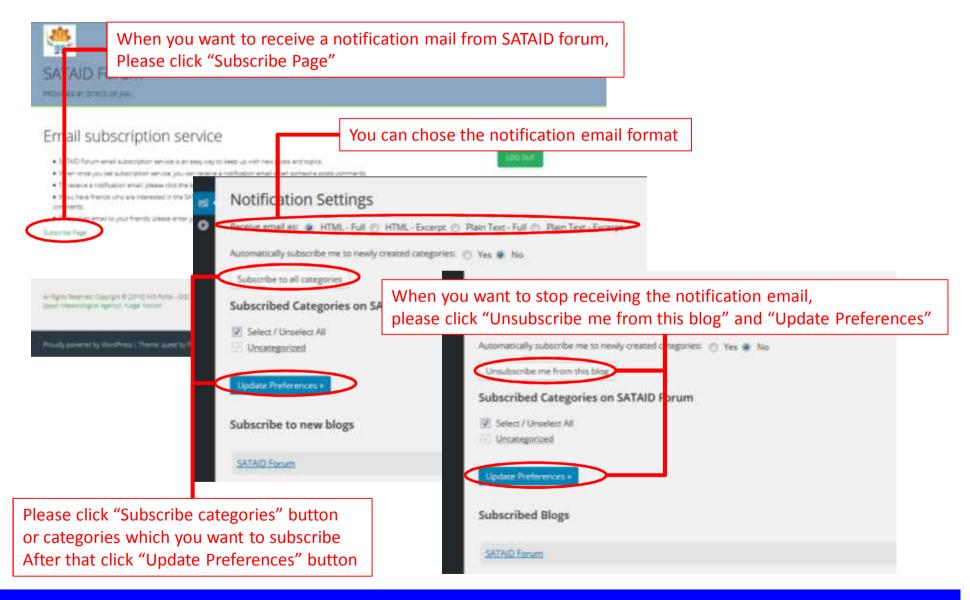

Japan Meteorological Agency

Summary

- JMA will provide an online discussion forum to the SATAID users via the Internet.
- It is under development. We have not decided when the forum will open.
- We are planning to allow current GISC Tokyo users to use this forum.
- We will inform GISC Tokyo users about SATAID forum, when we are ready.

SATAID forum is coming soon

Thank you for your time
