

SATAID setting for adding Metop-C/ASCAT

Download SATAID software from

<https://www.wis-jma.go.jp/cms/sataid/download.html>

The image shows the SATAID software interface with several callouts explaining the steps to add Metop-C/ASCAT data:

- 1. Activate this checkbox**: Points to the 'Wind' checkbox in the 'RADAR' section.
- 2. Activate this checkbox (Ext-3) (Add element)**: Points to the 'Ext-3' checkbox in the 'Wind' section.
- 3. Ctrl + Click (Arrow color: gradation) (Left frame become 50)**: Points to the '50' value in the 'Ext-3' row of the 'Wind' section.
- 4. Click**: Points to the 'Setup' button.
- 5. Add "Metop-C" in the blank. (Rename "Ext-3" label)**: Points to the 'Label' column in the 'Setup of Wind data item' dialog.
- Don't change FileName and FileType.**: Points to the 'FileName Prefix' and 'FileType' columns in the 'Setup of Wind data item' dialog.

The 'Setup of Wind data item' dialog shows the following table:

Label	FileName Prefix	FileType
Upper	WINC	Upper
Lower	WINC	Lower
Vapor	WINW	WV
Ext-1	WINE	Scat
Ext-2	WINX	Scat
Ext-3	WINY	Scat
	WINZ	Scat
	WING	
	WINH	
	WINI	

- How to save default values in the initial value file

1. Click [Option(O)] and select [Save settings(I)] from the pull-down menu.
2. Click [Save immediately(S)] or [Save on exit(O)] to save the settings for reading Metop-C/ASCAT data.
