

## IDEAS ON SOFTWARE APPLICATIONS?

This pilot project is intended to improve the user experience of WIS services including data subscription and metadata management. Ideas on applications that could help to improve WIS service usability are welcome. The purposes of applications currently under development include:

- Visualization of monitoring results
- Visualization of NWP and observation data
- Data acquisition
- Metadata creation

## CONTACT POINT UPDATES

RA-II and RA-V Members wishing to participate in the project should e-mail [wis-jma@met.kishou.go.jp](mailto:wis-jma@met.kishou.go.jp). To unsubscribe from this newsletter, please let us know so that we can remove you from the mailing list.
